Explora

You have access to 3 Explora websites. Each works the same way but searches different databases and offers tools for different audiences.

1. Explora: Canada
2. Explora: Educator's Edition
3. Explora: Primary

All Explora websites are run by EBSCO so if you created an account on EBSCOhost to use databases, you can use the exact same login!

Your Account: Use

- * Why create an account? You can save all the things you find to your account and access it anywhere with an internet connection.
- * You only have to create one account with EBSCO. That account will work on all of Explora's websites and EBSCOhost.
- * Select "Folder" from the top right to see your account. You can create your own folders and sort articles, images, videos, eBooks, audiobooks, searches and alerts to it.
- * How to save a search? Explora will keep track of your search history while you have the browser open. Select "Search History" from below the search bar. Select the searches you want to save and select "Save Searches/Alerts." You can combine searches here too!

Search: Basic & Advanced

Basic

- * Use the search bar on the homepage and type in keywords before selecting “Search.” As you type, a drop down menu with suggestions will appear to help you.
- * Once you have your search results, you can use the filters in the left panel to limit your results. Some of these are language, source type, peer reviewed, language and geography

Advanced

- * Select “Advanced Search” under the basic search bar for specific needs.
- * Among these options you can active Boolean phrases, search for only full text or maps from specific years, publications and languages.

Explora: Canada

- * Explora: Canada is dedicated to offering resources for students to do their research with a focus on Canada.
- * You can use the search bar and advanced search bar when searching OR browse by using the rotating carousel or the 8 categories.
- * Limit your search results using the panel on the left after you've run a search
