

PEACE LIBRARY SYSTEM		ENVIRONMENTAL PRACTICES	
CATEGORY:	Management and Operations	POLICY:	M5-20
DATE APPROVED:	November 28, 2020	REVIEW IN:	2025

It is one of the goals of the Peace Library System to operate as an environmentally responsible business.

1. Materials or equipment brought into the building or purchased will be reused or recycled whenever possible.
2. Products made from recycled materials will be purchased where available and when economically feasible.
3. Environmentally harmless office and cleaning products will be purchased where available and when economically feasible, except when public health orders are in effect, in which case Health Canada recommended products will be used.
4. Reusable products will be chosen over disposable products whenever possible and when economically feasible.
5. Non-renewable resources like electricity and water will be conserved where possible.
6. Some paid staff time will be allocated each week for recycling activities.
